To whom it concerns,

I have known Marie Therese Vincenti for a period of two years and have worked closely with her during that time. I have always found Marie to be honest and trustworthy, dedicated and very reliable. During my recent visit to Cote d' Azur Marie acted as both my Program Organiser, and my Interpreter. Her work as an interpreter during my lectures, particularly at the Sorbonne University, Department of Anthropology, and at various clubs in France, was of a very high standard.

I would recommend Marie for any work involving interpreting between French-English, and in an organisational capacity. Marie is good humoured and never gets frustrated by circumstances. I was personally impressed with her ability to quickly grasp the meaning of technical information and relay that information to others.

Marie helped organise the advertising for my visit and liaised closely with the media, including print media and television. I would like to recommend Marie to you as a person of integrity and great enthusiasm who would make a real contribution to any company.

Yours sincerely

Christopher L Battams
